## LIMBS visits Cuernavaca, Mexico

In January 2020, [LIMBS](#) president, Oscar Gonzalez, visited Cuernavaca, Mexico alongside Dr. Bruce A. Scudday who is Board Certified in Foot Surgery and Reconstructive Rearfoot/Ankle Surgery. Dr. Scudday partnered with [LIMBS](#) to help serve amputees and to share the knowledge he has acquired through many years of medical practice.

During the recent visit, caregivers were provided the opportunity of learning how to care for patients who have been amputated due to diabetes and its possible side effects. These effects can result from negligence due to the lack of education and/or resources.

Diabetes is a leading cause of amputation in Mexico. Once a patient loses a limb due to diabetes, the probability of another amputation increases. Dr. Scudday's visit brought awareness for both patients and local caregivers.

[LIMBS](#) International is honored to have Dr. Scudday as a [LIMBS](#) partner.

**Thank you** Dr. Scudday and welcome to the [LIMBS](#) family.

FEBRUARY 2020

A LIMBS patient with Oscar Gonzalez, LIMBS President and Dr. Scudday along with "DIF" officials at the recent training event.

## LIMBS Partnership

As **LIMBS** accompanied Dr. Scudday on his visit to Cuernavaca, Mexico, **LIMBS** was also establishing a partnership with the *National System for Integral Family Development* or better know as the "DIF", which is a public institution of social assistance that focuses on strengthening and developing the welfare of Mexican families.

## LIMBS Progress and Donors

**LIMBS** continues to provide LIMBS prostheses, therapy, teaching, and holistic emotional support to amputees and their families.

**"Thank you"** for your continuous trust and support.
